

## Aero Baffle - Grease trap metallic filters

Aero Baffle is a product from the "Metallic Filters" category that suits well into kitchen extracts and grease filtration. Baffle filters are made up of Stainless steel construction or Heavy Duty aluminium. These kind of filters possess a very long service life and are best suitable for kitchen hood applications. Main purpose of the filter is to trap grease from the airstream before it enters to the main duct.

#### Aero FBS

Metallic Baffle Filters with SS 304

#### Aero FBA

Metallic Baffle Filters with heavy duty aluminium

### Media Features and Technical Details

#### Aero FBS

Filters are made up of stainless steel material. Handles are provided on filter face for easy access and maintenance. This model assures longer life and sturdiness. Filters are approved to use in high temperature due to its "all metal" construction. Filters also have a drain hole to pass grease collected.

All filters are washable using mild detergents in hot water. Very strong grease loading can be removed using stronger cleansing liquids provided they are non-caustic. Wash the filters well, rinse and dry well before next use.
